

Nicola is a Parent Trustee and an Office Manager with over twenty years of experience working at various tax advisory, accounting and fund administration firms. Her current employment is based in Harrow and her responsibilities include managing the firm's ICT as well as compliance systems; including fulfilling the requirements of the General Data Protection Regulation (GDPR).

Nicola became part of the St John's family in 2019 as her daughter joined the school and she soon wanted to become more involved. Outside of work and school, her family and developing her garden to make it a haven for wildlife, especially the dwindling bee population, are Nicola's priorities. She serves as Link Trustee for both GDPR and Health & Safety, and has volunteered to assist the children with sustainable practices in the future.
